INDEX TO VOLUME XLVI

INDEX TO AUTHORS
INDEX TO SUBJECTS

JANUARY TO DECEMBER, 1957

AUTHOR INDEX

A

Abbott, D. D., *see* Harrisson, J. W. E., 549
——*see* Packman, E. W., 545
Anderson, H. D., *see* McCall, K. B., 295
Archibald, S., *see* Chappel, C. I., 497
Ariail, W. T., *see* Carroll, M. N., Jr., 93
Arndt, J. R., *see* Nelson, E., 257
Arnista, E. S., *see* Barr, M., 486
——*see* Barr, M., 493
Arora, R. B., *see* Dandiya, P. C., 111
Atal, C. K., and Schwarting, A. E., a note on the variability of alkaloid content of domestic ergot, 451
Autian, J., *see* Hom, F. S., 254

B

Bahler, M. E., *see* Florestano, H. J., 539
Baichwal, R. S., Baichwal, M. R., and Khorana, M. L., antibacterial and antifungal properties of β-naphthol derivatives IV, 603
Banes, D., a simplified nitrite procedure for the determination of reserpine, 601
Barr, M., adsorption studies on clays II. The adsorption of bacteria by activated attapulgite, halloysite, and kaolin, 490
——*see* Bernstein, H. B., 41
——Kohn, S. R., and Tice, L. F., effect of various sugars and polyols on the stability of vitamin B_{12}, 650
——and Arnista, E. S., adsorption studies on clays I. The adsorption of two alkaloids by activated attapulgite, halloysite, and kaolin, 486
——and Arnista, E. S., III. The adsorption of diphtheria toxin by activated attapulgite, halloysite, and kaolin, 493
——and Tice, L. F., a study of the inhibitory concentrations of glycerin-sorbitol and propylene glycol-sorbitol combinations on the growth of microorganisms, 217; a study of the inhibitory concentrations of various sugars and polyols on the growth of microorganisms, 219; the preservation of aqueous sorbitol solutions, 221; the preservation of aqueous preparations containing nonionic surfactants. I. Growth of microorganisms in solutions and dispersions of nonionic surfactants, 442; II. Preservation studies in solutions and products containing nonionic surfactants, 445
Bartilucci, A. J., DiGirolamo, A., and Eisen, H., a note on the use of sorbitol solution in pharmaceutical formulations, 627
Batuyios, N. H., and Brecht, E. A., an investigation of the incompatibilities of quaternary ammonium germicides in compressed troches I. The adsorption of cetylpyridinium chloride and benzalkonium chloride by talc and kaolin, 524
Bauer, C. W., and Pearson, R. W., a comparative study of the metabolism in the human body of some isomers of tartaric acid, 575
Beltz, L., and Jannke, P., the preparation of *p*-thymotic acid and its derivatives, 292
Berk, J. E., *see* Hom, F. S., 254
Bernstein, H. B., and Barr, M., effect of electrolytes on bentonite suspensions, 41
Bhatin, V. N., *see* Nair, A. D., 131
Bishop, J. G., and Richardson, A. W., the diphasic actions of ceanothyn and EDTA as blood coagulants, 337; the effect of ceanothyn on blood coagulation time, 396
——*see* Richardson, A. W., 553
Blackburn, D. W., *see* Patel, H. R., 51
Blake, M. I., the determination of alkali salts of organic acids by residual nonaqueous titration, 163; the determination of benzoic acid and salicylic acid mixtures by differential nonaqueous titration, 287
Blank, B. M., and Morgareidge, K., a note on the determination of ionic copper present in commercially available copper chlorophyllins, 73
Blaug, S. M., *see* Lach, J. L., 615
Bliss, C. A., and Ramstad, E., cardiac glycosides of *Euonymus atropurpurea* Jacq. I. Detection, separation, and isolation, 15; II. A study of the structure of euatroside and euatromonoside, 423
Bloom, F. C., *see* McCall, K. B., 295
Boaz, H., Elderfield, R. C., and Schenker, E., alstonia alkaloids VII. The structure of alstonidine, 510
Bockstahler, E. R., and Wright, D. L., alkoxy derivatives of β-piperidinopropiophenone and related compounds, 542
Bolger, J., *see* Steinberg, G. M., 188
Bolton, S., Guttman, D., and Higuchi, T., complexes formed in solution by homologs of caffeine. Interactions between *p*-hydroxybenzoic acid and ethyl, propyl, and butyl derivatives of theobromine, and theophylline, 38
Bookman, R. E., *see* Ritter, H. W., 148
Bope, F. W., *see* Liberman, S., 234
Brecht, E. A., *see* Batuyios, 524
——*see* Cooper, B. F., 520
——*see* Jowdy, A. W., 88
Bromberg, Y. M., *see* Brzezinski, A., 109
Brousseau, A. C., Segelman, M. R., and Jenkins, H. J., studies to determine the adaptability of the staircase phenomenon to the assay of cardiac glycosides, 468
Bruening, C. F., Neuss, J. D., Numerof, P., and Kline, O. L., cobalamin assay by the radioisotope tracer method. A collaborative study report of the U. S. P.-N. F. joint panel, 66
Brzezinski, A., Bromberg, Y. M., and Sulman, F. G., prolonged effect of riboflavin: aluminum monostearate suspensions in man, 109
Buckley, J. P., DeFeo, J. J., and Reif, E. C., the comparative antispasmodic activity of N-methyl-3-piperidyl diphenylglycolate methrobromide (JB-340) and atropine sulfate, 592
——*see* Hudak, W. J., 595
——*see* Schalit, F. M., 598
Burkman, A. M., Tye, A. and Nelson, J. W., antiemetics in the pigeon, 140
Buzza, E., *see* Jongkind, C. J., 214
——*see* Lueck, L. M., 694, 698
——*see* Nelson, E., 257

C

Call, T. G., and Fischer, E. B., volatile oil from the roots of *Pteryxia terebinthina* (Hook.) Coult. var. *Terebinthina*, 704
Campaigne, E., a comparison of the physiological activity of thiophene isomers, 129
Campbell, D. J., *see* Helgren, P. F., 639
——*see* Helgren, P. F., 644
Cannon, J. C., and Webster, G. L., synthesis of isoquinoline derivatives using 1-(lithio methyl) isoquinoline, 416
Carpenter, C. M., *see* Lawrence, C. A., 500
Carroll, J. J., and Nobles, W. L., a note on a new method of preparation of *p*-aminocinnamic acid, 72
Carroll, M. N., Jr., Fox, L. E., and Ariail, W. T., investigation of the toxic principles of *Hippomane mancinella* L. III. Toxic actions of extracts of *Hippomane mancinella* L., 93
Carroll, W. R., *see* Fox, L. E., 276
Carter, M. E., and Greig, M. E., erroneous values for sodium and potassium content of rat tissues dry-ashed in Pyrex, 624
Cavner, H., *see* Rossi, V., 455
Chadde, F. E., *see* Helgren, P. F., 644
Chafetz, L., *see* Foye, W. O., 366
Chan, F. T., and Tsao, D. P. N., the influence of bile salts on glycoside biosynthesis in *Digitalis purpurea* I. Sodium cholate, 228
Chandler, A. D., *see* Florestano, H. J., 539
Chandler, V. L., Pepper, R. E., and Gordon, L. E., a study of warexin, a new hypochlorous acid germicide, 124
Chappel, C. I., Grant, G. A., Archibald, S., and Paquette, R., an apparatus for testing the effect of drugs on the spontaneous activity of the rat, 497
Charnicki, W. F., and Kober, M., effect of flavors upon the stability of penicillin in oral penicillin-triple sulfonamide powders, 481
Chatterjee, R., Srinivasan, K. S. and Maiti, P. C., *Cordyceps sinensis* (Berkeley) Saccardo: structure of cordyceptic acid, 114
Chavkin, L., *see* Lachman, L., 412
Christian, J. E., *see* McKeehan, C. W., 631
Churchill, B. W., *see* Colovos, G. C., 580
Ciminera, J. L., Stone, C. A., and Ipsen, J., the statistical evaluation of a biological assay for antiemetic drugs, 197
Clark, L., and Roth, L. J., synthesis of 1-S-35 Diamox, 646
Colovos, G. C., and Churchill, B. W., the electron sterilization of certain pharmaceutical preparations, 580
Cooper, B. F., and Brecht, E. A., surfactants in tablets to improve disintegration, 520
Cooper, C., *see* Eisman, P. C., 144
Corey, E. J., Proskow, S., and Parks, L. M., the nature of scandol, 183
Correll, D. S., *see* Wall, M. E., 155, 653
Cull, K. M., *see* Hoekstra, J. B., 564
Cwalina, G. E., *see* Roll, W. D., 578

D

Dandiya, P. C., and Arora, R. B., a phytochemical and pharmacological study of the *Onsma bracteatum* Wall, 111
Danti, A. G., and Guth, E. P., a study of the release of selected antibiotics from cation-saturated bentonites, 249
DeFeo, J. J., *see* Buckley, J. P., 592
——*see* Hudak, W. J., 595
——*see* Schalit, F. M., 598
Dickison, H. L., *see* Hoekstra, J. B., 564
Digirolamo, A., *see* Bartilucci, A. J., 627
Dodgen, D. F., Jr., and Nobles, W. L., amithiozone (Tibione) analogs, 437
Dunham, N. W., Miya, T. S., and Edwards, L. D., the pharmacological activity of a series of basic esters of mono- and dialkylmalonic acids, 64
——and Miya, T. S., a note on a simple apparatus for detecting neurological deficit in rats and mice, 208

E

Earle, F. R., *see* McGuire, T. A., 247
Ecanow, B., and Gisvold, O., the preparation of some imidazoline and amidine compounds, 315
Edwards, L. D., *see* Jordin, M. W., 1
——*see* West, B., 58
Eisdorfer, I. B., *see* Rosen, E., 204
Eisen, H., *see* Bartilucci, A. J., 627
Eisman, P. C., Cooper, J., and Jaconia, D., influence of gum tragacanth on the bactericidal acitvity of preservatives, 144
Elderfield, R. C., *see* Boaz, H., 510

F

Faas, W. E., *see* Reitsema, R. H., 381
Faber, J. S., a note on the assay of zinc stearate, 514
Fanelli, R. V., *see* Light, A. E., 279
Farish, P. T., and Williams, B. B., a note on the effect of hyaluronidase on sulfathiazole renal toxicity, 206
Faust, J. A., Jules, L. H., Yee, L., and Sahyun, M., anticonvulsants: spirohydantoins and derivatives of tetrahydronaphthalene, 118
Feinman, J. L., *see* Harrisson, J. W. E., 549
——*see* Packman, E. W., 545
Fenske, C. S., *see* Wall, M. E., 653
Fiedler, K. R., and Gisvold, O., a preliminary phytochemical investigation of *Digitalis grandiflora*, 317
Fiedler, W. C., and Sperandio, G. J., the formulation of ointments containing

medication adsorbed on ion exchange resins, 44
——and Sperandio, G. J., the *in vitro* testing of ointments containing medication adsorbed on ion exchange resins, 47
Finger, K. F., *see* Lueck, L. M., 698
Fischbach, H., *see* Levine, J., 191
Fischer, L., *see* Vincent, M., 85
Fisher, D. S., *see* Hoekstra, J. B., 564
Fisher, J. W., *see* Murdock, H. R., 340
Florestano, H. J., Bahler, M. E., and Chandler, A. D., antimicrobial properties of a series of β-piperidinopropiones and related derivatives, 539
Foltz, E. L., *see* Swintosky, J. V., 399
——*see* Swintosky, J. V., 403
Fontaine, T. D., *see* Scott, W. E., 302
Fox, L. E., *see* Carroll, M. N., Jr., 93
——Carroll, W. R., and Glacy, J., fungistatic actions of estrogens and related compounds, 276
Fox, S. H., *see* Jongkind, J. C., 214
Foye, W. O., and Chafetz, L., amine derivatives of cyanuric chloride III. Piperazines and ethylenediamines, 366
——and Jeffery, J. G., the preparation of azopyrimidines and their metallized derivatives, 224
——and Lange, W. E., derivatives of α-amino aldehydes III. Cyclization products of thiosemicarbazones, 371
——and Verderame, M., thiol esters and esters of cysteine, 273
Free, S. M., *see* Swintosky, J. V., 399
Freedlander, B. L., and French, F. A., activity of β-diethylaminoethyl diphenylpropylacetate hydrochloride on Ehrlich ascites and other tumors, 648
Freedman, L., *see* Shapiro, S. L., 333
——*see* Shapiro, S. L., 689
French, D. L., and Gibson, M. R., the effect of glutamic acid on *Datura tatula* L. root cultures, 151
French, F. A., *see* Freedlander, B. L., 648
Friedenberg, R., and Nobles, W. L., some thyroxine analogs I. Substituted β-phenylserines and related substances, 387

G

Galinsky, A. M., Gearien, J. E., and Smissman, E. E., a synthesis of diketopiperazines using polyphosphoric acid, 391
Gambier, A. S., and Rahn, E. P., the combination of B-complex vitamins and ascorbic acid in aqueous solutions, 134
Gans, E. H., and Higuchi, T., the solubility and complexing properties of oxytetracycline and tetracycline I. Interaction in aqueous solution, 458; II. Interactions in nonaqueous solutions, 587
Garrett, E. R., prediction of stability in pharmaceutical preparations IV. The interdependence of solubility and rate in saturated solutions of acylsalicylates, 584
Gearien, J. E., *see* Galinsky, A. M., 391
Gentry, H. S., *see* Wall, M. E., 155
——*see* Wall, M. E., 653
Gerber, C. E., Hetzel, C. P., Klioze, O., and Leyden, A. F., aqueous oral preparations containing ascorbic acid, vitamin B_{12}, and ferrous gluconate, 635
Geschickter, C. F., *see* O'Malley, E., 346
Gibson, M. R., *see* French, D. L., 151
Giavold, O., *see* Ecanow, B., 315
——*see* Fiedler, K. R., 317
——*see* Schwartz, S. M., 324
——and Wright, S. E., enzymatic decomposition of digitalis glycosides, 535
Glacy, J., *see* Fox, L. E., 276
Gordon, F. H., *see* McCall, K. B., 295
Gordon, L. E., *see* Chandler, V. L., 124
Gorman, W. G., and Salisbury, R., studies on the high voltage electrophoresis of strychnos alkaloids, 476
Grant, G. A., *see* Chappel, C. I., 497
Grattan, J. E., *see* Neesby, T. E., 263
Greig, M. E., *see* Carter, M. K., 624
Gross, G. C., and Voss, E., a comparative study of the local anesthetic potencies and toxicities of *Beta*-diethylaminoethyl cumate and procaine, 167
Grundy, W. E., Rdzok, E. J., Remo, W. J., Sagen, H. E., and Sylvester, J. C., the sterilization of plastic intravenous injection equipment by ethylene oxide vapor, 439
Guth, E. P., *see* Danti, A. G., 249
——*see* Sommers, E. B., 55
Guttman, D., and Higuchi, T., reversible association of caffeine and of some caffeine homologs in aqueous solution, 4
——*see* Bolton, S., 38
——*see* Lachman, L., 36

H

Haley, T. J., 5-hydroxytryptamine antagonism by lysergic acid diethylamide after intracerebral injection in conscious mice, 428
—— intracerebral injection of neostigmine and eserine in conscious mice, 252
Hamor, G. H., a note on fungicides: 2-trichloromethanesulfenyl-6-nitrosaccharin and related compounds, 207
——*see* Masuda, J. Y., 61
Harrisson, J. W. E., Abbott, D. D., Feinman, J. L., and Packman, E. W., comparative *in vivo* methods for evaluating antacids in humans, 549
——*see* Packman, E. W., 545
——*see* Rossi, V., 455
Hartman, C. W., and Husa, W. J., isotonic solutions V. The permeability of red corpuscles to various salts, 430
Haskell, A. R., and Voss, E., the pharmacology of tetramine (tetraethylenedisulfotetramine), 239
Haycock, R. P., and Mader, W. J., reaction of Rauwolfia alkaloids, indoles, and related compounds to nitrite, 744
Head, W. F., Jr., and Lauter, W. M., ultrasonic depolymerization of natural polymers, 617
Helgren, P. F., Chadde, F. E., and Campbell, D. J., determination of theophylline, pentobarbital, and papaverine in tablets by spectrophotometric analysis, 644
—— Theivagt, J. G., and Campbell, D. J., methods for determination of Tral, a new anticholinergic drug, 639
Hetzel, C. P., *see* Gerber, C. E., 635
Higuchi, T., *see* Bolton, S., 38
——*see* Eavin, L. J., 732
——*see* Gans, E. H., 458, 587
——*see* Guttman, D., 4
——*see* Kennon, L., 21
——*see* Kostenbauder, H. B., 205
——*see* Lachman, L., 32, 36
——*see* Lueck, L. M., 694, 698
Hoekstra, J. B., Fisher, D. S., Cull, K. M., Tisch, D. E., and Dickison, H. L., studies with a uterine antispasmodic, ambucetamide, 564
Hom, F. S., Autian, J., Martin, A. N., Berk, J. E., and Teplick, J. G., stabilization of ethiodol emulsion for intravenous administration, 254
Hudak, W. J., Buckley, J. P., Schalit, F. M., DeFeo, J. J., and Reif, E. C., an evaluation of certain hypotensive agents I. Diquaternarized amino alcohol esters of piperidinecarboxylic acids and a pyridinecarboxylic acid, 595
——*see* Schalit, F. M., 598
Husa, W. J., *see* Hartman, C. W., 430
——*see* Tinker, R. B., 243
Huycke, E. J., bioassay of aged atropine solutions, 160
Hyndman, L. A., *see* McCall, K. B., 295

I

Ipsen, J., *see* Ciminera, J. L., 197

J

Jaconia, D., *see* Eisman, P. C., 144
Jannke, P., *see* Beltz, L., 292
——*see* Summa, A. F., 363
Jeffrey, J. G., *see* Foye, W. O., 224
——*see* Quinn, T. J., 384
Jenkins, G. L., *see* Patel, H. R., 51
Jenkins, H. J., *see* Brousseau, A. C., 468
——*see* Robinson, S. M., 556
Jones, D. D., Katyama, H., and Tyler, V. E., Jr., the quantitative estimation of ergotamine and ergotoxine by paper chromatography, 426
Jongkind, J. C., Buzza, E., and Fox, S. H., assay of menadione—a polarographic procedure, 214
Jordin, M. W., Miya, T. S., and Edwards, L. D., a pharmacologic study of diphenic acid and its sodium salt, 1
Jowdy, A. W., and Brecht, E. A., insoluble solids as emulsifiers, 88
Jules, L. H., *see* Faust, J. A., 118

K

Kalemkiarian, P. H., and Miller, O. H., a pharmacognostical study of *Datura discolor* Bernh, 393
Katyama, H., *see* Jones, D. D., 426
Kenny, H. E., *see* Wall, M. E., 653

SUBJECT INDEX

A

A-2077, a pharmacological study of a new orally effective adrenergic blocking agent, 472

Acetophenetidin, acetylsalicylic acid, and caffeine, rapid chromatographic assay of, 687

Acetylenic bis-onium derivatives. An evaluation of certain hypotensive agents II, 598

Acetylsalicylic acid acetophenetidin, and caffeine, rapid chromatographic assay of, 687

Acylsalicylates, the interdependence of solubility and rate in saturated solutions of. Prediction of stability in pharmaceutical preparations IV, 584

Adrenergic blocking agent (A-2077), a pharmacological study of a new orally effective, 472

Adsorption studies on clays I. The adsorption of two alkaloids by activated attapulgite, halloysite, and kaolin, 486; II. The adsorption of bacteria by activated attapulgite, halloysite, and kaolin, 490; III. The adsorption of diphtheria toxin by activated attapulgites, halloysite, and kaolin, 493

Aerobacter aerogenes, a potent pyrogenic extract derived from a strain of, 685

AHR-85 methocarbamol, guaiacol glyceryl ether, mephenesin, and mephenesin carbamate, plasma levels of, after oral and intravenous administration in the dog, 374

Alcohols, diisocyanates in the characterization of, 363

Alkali salts of organic acids, the determination of, by residual nonaqueous titration, 163

Alkaloid, a note on the variability of content of domestic ergot, 451

Alkaloids, adsorption of two, by activated attapulgite, halloysite, and kaolin. Adsorption studies on clays I, 486
- Alstonia VII. The structure of alstonidine, 510
- from *Alstonia constricta* F. Muell, a note on the root bark, 508
- solanaceous, a chromatographic densitometric procedure for the analysis of, 384
- strychnos, studies on the high voltage electrophoresis of, 476
- survey of selected solanacae for, 302

Alkanesulfonic acids, preparation of metal salts of, 578

N-Alkyl and N-aryl derivatives of 3-phenylglutarimide and 3-phenyl-2-methylglutarimide, glutarimides IV, 176
- and N-dialkylaminoalkyl derivatives of *o*-benzenedisulfonimide, a study of some. Local anesthetics, 61

Alkylcarbamic acid esters which possess pharmacological activity, the synthesis of some, 290

Alseroxylon alkaloids and epinephrine, action of, on carotid pressoreceptors. Rauwolfia hypotension II, 103

Alstonia alkaloids VII. The structure of alstonidine, 510
- constricta, F. Muell, a note on the root bark alkaloids from, 508

Alstonidine, a note on the crystallography of, 509
- the structure of. Alstonia alkaloids VII, 510

Aluminum monostearate suspensions in man. Prolonged effects of riboflavin, 109

Ambucetamide, a uterine antispasmodic, studies with, 564

Amidine and imidazoline compounds, the preparation of some, 315

Amine derivatives of cyanuric chloride III. Piperazines and ethylenediamines, 366

Amino acid utilization and glutamic acid synthesis by variants of *Pseudomonas aeruginosa*, 307

α-Amino aldehydes, derivatives of, III. Cyclization products of thiosemicarbazones, 371

p-Aminocinnamic acid, a note on a new method of preparation of, 72

Amithiozone (tibione) analogs, 437

Ammonium salts, a note on paper chromatography of some quaternary, 625

Analgetics, certain nonnarcotic, comparative effects of, on the pain-induced lowering of total nonprotein sulfhydryl content of rat liver, 19

Anionic polyelectrolytes, interaction studies of cationic drugs with, II. Polyacrylic and styrene polymers, 21

Anisic acid, preparation of new derivatives of, 234

Antacid evaluation, an approach to, 179

Antacids, a comparative human *in vivo* study of, 545
- gastric, *in vitro* study of, 344
- in humans, comparative *in vivo* methods for evaluating, 549

Antiacetylcholine activity of piperazine derivatives, 279

Antibacterial activity of erythromycin in ointments, the effect of various drugs upon the, 243
- and antifungal properties of β-naphthol derivatives IV, 603

Antibiotics, selected, a study of the release of, from cation-saturated bentonites, 249

Anticholinergic drug, a new, methods for the determination of Tral, 639

Anticonvulsants: spirohydantoins and derivatives of tetrahydronaphthalene, 118

Antiemetic drugs, the statistical evaluation of a biological assay for, 197

Antiemetics in the pigeon, 140

Antifungal and antibacterial properties of β-naphthol derivatives IV, 603

Antigenic stability of an enteric-coated oral respiratory vaccine, a note on, 148

Antihypertensive drugs, on the use of hypertensive rats for the testing of, 10

Apparatus for detecting neurological deficit in rats and mice, a note on a simple, 208

Aqueous oral preparations containing ascorbic acid, vitamin B_{12}, and ferrous gluconate, 635

Aqueous preparations containing nonionic surfactants, the preservation of, I. Growth of microorganisms in solutions and dispersions of nonionic surfactants, 442, II. studies in solutions and products containing nonionic surfactants, 445

Aralkylamines, a pharmacological study of a series of, 58

N-Aryl and N-alkyl derivatives of 3-phenylglutarimide and 3-phenyl-2-methylglutarimide, glutarimides IV, 176

Ascorbic acid in aqueous solutions, the combination of B-complex vitamins and, 134
- vitamin B_{12}, and ferrous gluconate, aqueous oral preparations containing, 635

Atropa belladonna, lyophilized, extraction of constituents of, 55

Atropine and its hydrolytic products, analysis of by filter paper chromatography, 173
- solutions, aged, bioassay of, 160
- stability of, in aqueous solution, 531
- sulfate, the comparative antispasmodic activity of N-methyl-3-piperidyl diphenylglycolate methobromide (JB-340) and, 592

Attapulgites, activated, halloysite, and kaolin, the adsorption of diphtheria toxin by. Adsorption studies on clays III, 493; activated, halloysite, and kaolin, the adsorption of bacteria by. Adsorption studies on clays, II, 490; activated halloysite, and kaolin, the adsorption of two alkaloids by. Adsorption studies on clays I, 486

Azopyrimidines and their metallized derivatives, the preparation of, 224

B

Bacteria, the adsorption of, by activated attapulgite, halloysite, and kaolin. Adsorption studies on clays II, 490

Bentonite suspensions, effect of electrolytes on, 41

Bentonites, cation-saturated, a study of the release of selected antibiotics from, 249

Benzalkonium chloride and cetylpyridinium chloride, the adsorption of, by talc and kaolin. An investigation of the incompatiblities of quaternary ammonium germicides in compressed troches I, 524

o-Benzenesulfonimide, a study of some N-alkyl and N-dialkylaminoalkyl derivatives of. Local anesthetics, 61

Benzocaine, stabilization of, with 1-ethyltheobromine. Inhibition of hydrolysis of esters in solution by formation of complexes IV, 36

Benzoic acid and salicylic acid mixtures the determination of, by differential nonaqueous titration, 287

Bile salts, influence of, on glycoside biosynthesis in *Digitalis purpurea*, I. 228, 232

Bioassay of aged atropine solutions, 160

Biological assay for antiemetic drugs, the statistical evaluation of a, 197

Blood coagulants, the diphasic actions of ceanothyn and EDTA as, 337

Blood coagulation time, the effect of ceanothyn on, 396
- a new accurate and reliable method to record, using an a. c. bridge principle, 353

Technique of Organic Chemistry, Vol. X, Fundamentals of Chromatography, 629
Traité de Pharmacie chimique, 4th ed., Vol. I–V, 75
Year Book of Drug Therapy (1956–1957 Series), 389
Boric Acid and sodium metaborate, a note on the effect of, on the oxygen uptake of brain tissue, 569
Bur clover (*Medicago hispida*), isolation of a saponin, hederin, and its sapogenin, hederagenin, from, 466

C

Caffeine, acetylsalicylic acid, and acetophenetidin, rapid chromatographic assay of, 687
complexes formed in solution by homologs of. Interaction between *p*-hydroxybenzoic acid and ethyl, propyl, and butyl derivatives of theobromine and theophylline, 38
reversible association of, and of some caffeine homologs in aqueous solution, 4
stabilization of tetracaine with. Inhibition of hydrolysis of esters in solution by formation of complexes III, 32
Carbutamide (BZ-55), a note on the crystallography of, 452
Cardiac glycosides of *Euonymus atropurpurea* Jacq. I. Detection, separation, and isolation, 15; II. A study of the structure of euatroside and euatromonoside, 423
simplified procedure for the qualitative detection of. Steroidal sapogenins XL, 304
studies to determine the adaptability of the staircase phenomenon to the assay of, 468
Carvone analysis by ultraviolet absorption, 381
Cationic drugs, interaction studies of, with anionic polyelectrolytes II. Polyacrylic and styrene polymers, 21
Ceanothyn and EDTA as blood coagulants, the diphasic actions of, 337
the effect of, on blood coagulation time, 396
Cetyl alcohol, polyethylene glycols, spermaceti, petrolatum, white wax, and theobroma oil, a dilatometric study of melting behavior of some fats, waxes, and related substances of pharmaceutical importance, 732
Cetylpyridinium chloride and benzalkonium chloride, the adsorption of, by talc and kaolin. An investigation of the incompatibilities of quaternary ammonium germicides in compressed troches I, 524
Chloral derivatives, the preparation and pharmacological properties of some, 359
Chlorobutanol, a colorimetric assay for, 621
Chlorophyllins, commercially available copper, a note on the determination of ionic copper present in, 73
Chromatographic assay, a rapid, of acetylsalicylic acid, acetophenetidin, and caffeine, 687
paper, evaluation of rauwolfia species, 720
Chromatography, a quantitative estimation of ergotamine and ergotoxine by paper, 426
paper, of some quaternary ammonium salts, a note on, 625
Crystallography of alstonidine, a note on the, 509
of carbutamide (BZ-55), a note on the, 452
Cobalamin assay by the radioisotope tracer method. A collaborative study report of the U. S. P.-N. F. joint panel, 66
Cobalt-iron complex, hemopoietic effects of ferriferrocobaltochloroaminoacetate (L. B. 101), 340
Copper chlorophyllins, commercially available, a note on the determination of ionic copper present in, 73
Copper, ionic, present in commercially available copper chlorophyllins, a note on the determination of, 73
Cordycepic acid, structure of: *Cordyceps sinensis* (Berkeley) Saccardo, 114
Cordyceps sinensis (Berkeley) Saccardo: structure of cordycepic acid, 114
Correllogenin and gentrogenin, occurrence and isolation of, from *Dioscorea spiculiflora.* Steroidal sapogenins XXXIX, 155
Cyanuric chloride, amine derivatives of, III. Piperazines and ethylenediamines, 366
Cycloserine and isoniazid, spectrophotometric determination of, in pharmaceutical preparations, 729
Cylinder-plate method for the quantitative determination of diffusion of antibacterial drugs from ointments, 716
Cysteine, thiol esters and esters of, 273

D

Datura discolor Bernh, pharmacognostical study of, 393
Datura tatula L. root cultures, the effect of glutamic acid on, 151
Depolymerization of natural polymers, ultrasonic, 617
N,N-Dialkylamides, a note on the water solubility of some, 205
N-Dialkylaminoalkyl and N-alkyl derivatives of *o*-benzenedisulfonimide, a study of some. Local anesthetics, 61
Dialkylmalonic acids, pharmacological activity of a series of basic esters of mono- and, 64
1-S-35 Diamox, synthesis of, 646
Diazobarbituric anhydride, *in vitro* inhibition of *Endamoeba histolytica* by, 703
β-Diethylaminoethyl cumate and procaine, a comparative study of the local anesthetic potencies and toxicities of, 167
β-Diethylaminoethyl diphenylpropylacetate hydrochloride, activity of, on Ehrlich ascites and other tumors, 648
Digitalis glycoside, gitoside, a new, 170
Digitalis glycosides, enzymatic decomposition of, 535
Digitalis grandiflora, a preliminary phytochemical investigation of, 317
Digitalis lutea second year growth, a preliminary phytochemical investigation of, 324
Digitalis purpurea, the influence of bile salts on glycoside biosynthesis in, I. Sodium cholate, 228; II. Sodium deoxycholate, dehydrocholate, glycocholate, and taurocholate, 232
Dihydroxydiphenic and diphenic acids, synthesis of mono- and diesters of, 51
Diisocyanates in the characterization of alcohols, 363
Diketopiperazines, synthesis of, using polyphosphoric acid, 391
Dilatometric study of melting behaviors of some fats, waxes, and related substances of pharmaceutical importance. I. Polyethylene glycols, spermaceti, cetyl alcohol, petrolatum, white wax, and theobroma oil, 732
Dimenhydrinate and diphenhydramine, psychomotor effects of, 702
Dimethylurea and polyethylene glycol, study of complex formation by, with some pharmaceuticals, 615
Dioscorea spiculiflora, occurrence and isolation of gentrogenin and correllogenin from, Steroidal sapogenins XXXIX, 155
Diphasic actions of ceanothyn and EDTA as blood coagulants, 337
Diphenhydramine hydrochloride and dimenhydrinate, psychomotor effects of, 702
Diphtheria toxin, the adsorption by activated attapulgites, halloysite, and kaolin. Adsorption studies on clays III, 493
Diphenic acid and its sodium salt, a pharmacologic study of, 1
Diphenic and dihydroxydiphenic acids, synthesis of mono- and diesters of, 51
Diquaternarized amino alcohol esters of piperidinecarboxylic acids and a pyridinecarboxylic acid. An evaluation of certain hypotensive agents I, 595
Disinfectants, iodophors as, 500
Disintegration of compressed tablets, studies on, I. Effect of disintegration time of the procedure used in incorporating the disintegrating agent, 131
factors affecting tablet, 236
Ditremexa occidentalis L., isolation of physcion from, 271
Diuretics, triazine mercurial, 698

E

EDTA and ceanothyn as blood coagulants, the diphasic actions of, 337
Electrolytes, effect of, on bentonite suspensions, 41
Electrophoresis of strychnos alkaloids, studies on the high voltage, 476
Emulsifiers, insoluble solids as, 88
Endamoeba histolytica, *in vitro* inhibition of, by diazobarbituric anhydride, 703
Epinephrine and alseroxylon alkaloids, action of, on carotid pressoreceptors. Rauwolfia hypotension II, 103
Ergot, domestic, a note on the variability of alkaloid content of, 451
Ergotamine and ergotoxine, the quantitative estimation of, by paper chromatography, 426

Ergotoxine and ergotomine, the quantitative estimation of, by paper chromatography, 426
Erythromycin in ointments, the effect of various drugs upon the antibacterial activity of, 243
Escherichia coli, effect of glutathione and some of its components on its response to penicillin, 433
Eserine in conscious mice, intracerebral injection of neostigmine and, 252
Esters, inhibition of hydrolysis of, in solution by formation of complexes III. Stabilization of tetracaine with caffeine, 32; IV. Stabilization of benzocaine with 1-ethyltheobromine, 36
Estrogens and related compounds, fungistatic actions of, 276
Ethinamate, a note on crystallographic and x-ray diffraction data for, 571
Ethiodol emulsion for intravenous administration, stabilization of, 254
Ethylene oxide vapor, the sterilization of plastic intravenous injection equipment by, 439
Ethylenediamines and piperazines. Acyline derivatives of cyanuric chloride III, 366
1-Ethyltheobromine, stabilization of benzocaine with. Inhibition of hydrolysis of esters in solution by formation of complexes IV, 36
Euatromonoside and euatroside, a study of the structure of. Cardiac glycosides of *Euonymus atropurpurea* Jacq. II, 423
Euonymus atropurpurea Jacq., cardiac glycosides of, I. Detection, separation, and isolation, 15; II. A study of the structure of euatroside and euatromonoside, 423

F

Fats, waxes, and related substances of pharmaceutical importance, a dilatometric study of melting behaviors of some, I. Polyethylene glycols, spermaceti, cetyl alcohol, petrolatum, white wax and theobroma oil, 732
Ferriferrocobaltochloroaminoacetate (L. B. 101) a cobalt-iron complex, hemopoietic effects of, 340
Ferrous gluconate, ascorbic acid, and vitamin B_{12}, aqueous oral preparations containing, 635
sulfate, exsiccated, Fe^{59} tagged, a note on the preparation of, 204
Fibrinogen, human, for intravenous use, methods for the preparation and ultraviolet irradiation of, 295
Flavors, effect of, upon the stability of penicillin-triple sulfonamide powders, 481
Formaldehyde in poliomyelitis vaccines, estimation of, 299
Fungicides, a note on: 2-trichloromethanesulfenyl-6-nitrosaccharin and related compounds, 207
Fungistatic actions of estrogens and related compounds, 276; properties and toxicity of certain resorcinol derivatives, preliminary investigation, 185

G

Ganglionic blocking agent (Wy-1263), hypotensive activity of, and its comparative effectiveness on normotensive unanesthetized dogs, 346
Gastric acid secretion, the effect of reserpine and meprobamate on, 455
Gastric antacids, *in vitro* study of, 344
Gentrogenin and correllogenin, isolation and occurrence of, from *Dioscorea spiculiflora*. Steroidal sapogenins XXXIX, 155
Germicides in compressed troches, an investigation of the incompatibilities of quaternary ammonium, I. The adsorption of cetylpyridinium chloride and benzalkonium chloride by talc and kaolin, 524
Gitoside, a new digitalis glycoside, 170
Glutamic acid, the effect of, on *Datura tatula* L. root cultures, 151
synthesis by variants of *Pseudomonas aeruginosa*, amino acid utilization and, 307
Glutarimides IV. N-Alkyl and N-aryl derivatives of 3-phenylglutarimide and 3-phenyl-2-methylglutarimide, 176
Glutathione, effect of, and some of its components on the response of *Escherichia coli* to penicillin, 433
Glycerin-sorbitol and propylene glycol-sorbitol combinations on the growth of microorganisms, a study of the inhibitory concentrations of, 217
Glycoside biosynthesis, the influence of bile salts on, in *Digitalis purpurea* I. Sodium cholate, 228, II. Sodium deoxycholate, dehydrocholate, glycocholate, and taurocholate, 232
Glycosides, cardiac, simplified procedure for the qualitative detection of, Steroidal sapogenins XL, 304
studies to determine the adaptability of the staircase phenomenon to the assay of, 466
enzymatic decomposition of digitalis, 535
Guaiacol glyceryl ether, mephenesin, mephenesin carbamate, and methocarbamol (AHR-85), plasma levels of, after oral and intravenous administration in the dog, 374
Gums and suspending agents, a study of the lyophilization of several pharmaceutical, 412
Gum tragacanth, influence of on the bactericidal activity of preservatives, 144

H

Halloysite, activated attapulgite, and kaolin, the adsorption of two alkaloids by. Adsorption studies on clays I, 486
activated attapulgite, and kaolin, the adsorption of bacteria by. Adsorption studies on clays II, 490
activated attapulgite, and kaolin, the adsorption of diphtheria toxin by. Adsorption studies on clays III, 493
Hederagenin, sapogenin of hederin, isolation of, from bur clover (*Medicago hispida*), 466
Hederin, isolation of a saponin, and its sapogenin, hederagenin, from bur clover (*Medicago hispida*), 466
Hemopoietic effects of ferriferrocobaltochloroaminoacetate (L. B. 101) a cobalt-iron complex, 340
Hippomane mancinella L., toxic actions of extracts of. Investigation of the toxic principles of *Hippomane mancinella* L. III, 93
Hormones, sex, ion exchange separation of phenolic and nonphenolic, in pharmaceutical preparations, 321
Hyaluronidase, a note on the effect of, on sulfathiazole renal toxicity, 206
Hydrocortisone esters, effect of alterations in side chain upon anti-inflammatory and liver glycogen activities of, 515
Hydrolysis of esters, inhibition of, in solution by formation of complexes III. Stabilization of tetracaine with caffeine, 32; IV. Stabilization of benzocaine with 1-ethyltheobromine, 36
***p*-Hydroxybenzoic acid** and ethyl, propyl, and butyl derivatives of theobromine and theophylline, interactions between. Complexes formed in solution by homologs of caffeine, 38
5-Hydroxytryptamine antagonism by lysergic acid diethylamide after intracerebral injection in conscious mice, 428
Hypertensive rats, use of, for the testing of antihypertensive drugs, 10
Hypochlorous acid germicide, a new, a study of warexin, 124
Hypotensive agents, an evaluation of certain, I. Diquaternarized amino alcohol esters of piperidinecarboxylic acids and a pyridinecarboxylic acid, 595; II. Acetylenic bis-onium derivatives, 598

I

Imidazolidines, a colorimetric procedure for, 742
Imidazoline and amidine compounds, preparation of some, 315
Indoles, rauwolfia alkaloids, and related compounds, reaction of, to nitrite, 744
Inhibition of hydrolysis of esters in solution by formation of complexes III. Stabilization of tetracaine with caffeine, 32; IV. Stabilization of benzocaine with 1-ethyltheobromine, 36
Injection equipment, sterilization of plastic intravenous, by ethylene oxide vapor, 439
Integrating sphere reflectometer, some applications of, to pharmaceutical problems, 631
Interaction studies of cationic drugs with anionic polyelectrolytes II. Polyacrylic and styrene polymers, 21
Interactions between *p*-hydroxybenzoic acid and ethyl, propyl, and butyl derivatives of theobromine and theophylline, 38
Iodophors as disinfectants, 500
Ion exchange resins, the formulation of ointments containing medication adsorbed on, 44
Isoniazid and cycloserine, spectrophotometric determination of, in pharmaceutical preparations, 729
Isonicotinoyl hydrazine derivatives and their activity against *Mycobacterium tuberculosis* in the mouse, 738
Isonitrosoketones, 188
Isoquiniline derivatives, synthesis of, using 1-(lithio methyl) isoquinoline, 416
Isotonic solutions V. The permeability of red corpuscles to various salts, 430

K

Kaolin, activated attapulgite, and halloysite, the adsorption of two alkaloids by. Adsorption studies on clays I, 486
activated attapulgite, and halloysite, the adsorption of bacteria by. Adsorption studies on clays II, 490
activated attapulgite, and halloysite, the adsorption of diphtheria toxin by. Adsorption studies on clays III, 493

L

L. B. 101, a cobalt-iron complex, hemopoietic effects of ferriferrocobaltochloroaminoacetate, 340
1-(Lithio methyl) isoquinoline, synthesis of isoquinoline derivatives using, 416
Local anesthetics. A study of some N-alkyl and N-dialkylaminoalkyl derivatives of *o*-benzenedisulfonimide, 61
Lubricating property of medicinal products, a method for the measurement of, 558
Lyophilization of several pharmaceutical gums and suspending agents, a study of the, 412
Lysergic acid diethylamide, 5-hydroxytryptamine antagonism by, after intracerebral injection in conscious mice, 428

M

Medicago hispida (bur clover), isolation of a saponin, hederin, and its sapogenin, hederagenin, from, 466
Menadione, assay of—a polarographic procedure, 214
***l*-Menthol,** effect of on the systemic blood pressure, 82
Mephenesin, an investigation of the possible potentiation of the analgetic properties of morphine by, 556
carbamate, plasma levels of, after oral and intravenous administration in the dog, 374
plasma levels of, after oral and intravenous administration in the dog, 374
Meprobamate and reserpine, effect of, on gastric acid secretion, 455
Mercurial, triazine, diuretics, 689
Methocarbamol (AHR-85), plasma levels of, after oral and intravenous administration in the dog, 374
Methylcellulose and preservatives, a study of the interaction between, 211
N-Methyl-3-piperidyl diphenylglycolate methobromide (JB-340) and atropine

sulfate, the comparative antispasmodic activity of, 592
Microorganisms, growth of, in solutions and dispersions of nonionic surfactants. The preservation of aqueous preparations containing nonionic surfactants I, 442
a study of the inhibitory concentrations of glycerin-sorbitol and propylene glycol-sorbitol combinations on the growth of, 217
a study of the inhibitory concentrations of various sugars and polyols on the growth of, 219
Monoalkylmalonic and dialkylmalonic acids, the pharmacological activity of a series of basic esters of, 64
Morphine, extraction of, from poppy capsules and its recovery by ion exchange, 193
an investigation of the possible potentiation of the analgetic properties of, by mephenesin, 556
use of ion exchange in recovery and partial purification of, from aqueous extracts of poppy capsules, 247
Mycobacterium tuberculosis, isonicotinoyl hydrazine derivatives and their activity against, in the mouse, 738

N

β-Naphthol derivatives, antibacteria and antifungal properties of, IV, 603
Neostigmine and eserine, intracerebral injection of, in conscious mice, 252
Neurological deficit in rats and mice, simple apparatus for, 208
N. F.-U. S. P. joint panel, a collaborative study report of, on cobalamin assay by the radioisotope tracer method, 66
Nitrous acid, spectrophotometric titrations with, I. Estimation of procaine hydrochloride, propoxycaine hydrochloride, and tetracaine hydrochloride, 274
Nonphenolic and phenolic sex hormones in pharmaceutical preparations, ion separation of, 321
Nonionic surfactants, preservation of aqueous preparations containing, I. Growth of microorganisms in solutions and dispersions of nonionic surfactants, 442. II. Preservative studies in solutions and products containing nonionic surfactants, 445

O

Oil, volatile, from the roots of *Pteryxia terebinthina* (Hook.) Coult. var. *Terebinthina*, 704
Ointment bases, petrolatum, and silicone, a comparison of *in vivo* and *in vitro* tests for the absorption, penetration, and diffusion of some medicinals from, 705
Ointments containing medication adsorbed on ion exchange resins, formulation of, 44
containing medication adsorbed on ion exchange resins, *in vitro* testing of, 47
a cylinder-plate method for the quantitative determination of diffusion of antibacterial drugs from, 716
protective, investigation and development of, I. Development of a method for measuring permeation of mechanical barriers, 694; I. Influence of partition coefficient and thickness, 698
Onosma bracteatum Wall, a phytochemical and pharmacological study of, 111
Oral respiratory vaccine, an enteric-coated, a note on the antigenic stability of, 148
Organic acids, determination of alkali salts of, by residual nonaqueous titration, 163
Oxytetracycline and tetracycline, the solubility and complexing properties of, I. Interaction in aqueous solution, 458; II. Interactions in nonaqueous solution, 587

P

Papaverine, theophylline, and pentobarbital in tablets, determination of, by spectrophotometric analysis, 644
Pentathionate and tetrathionate anions, the exchange of sulfur atoms between, 266
Penicillin, effect of glutathione and some of its components on the response of *Escherichia coli* to, 433
Pentobarbital, theophylline, and papaverine in tablets, determination of, by spectrophotometric analysis, 644
Petrolatum ointment bases and silicone, a comparison of *in vivo* and *in vitro* tests for the absorption, penetration, and diffusion of some medicinals from, 705
polyethylene glycols, spermaceti, cetyl alcohol, white wax, and theobroma oil, a dilatometric study of melting behavior of some fats, waxes, and related substances of pharmaceutical importance, 732
Phenolic and nonphenolic sex hormones in pharmaceutical preparations, ion separation of, 321
3-Phenyl-2-methylglutarimide and 3-phenylglutarimide, N-alkyl and N-aryl derivatives of. Glutarimides IV, 176
3-Phenylglutarimide and 3-phenyl-2-methylglutarimide, N-alkyl and N-aryl derivatives of. Glutarimides IV, 176
β-Phenylserines, substituted, and related substances. Some thyroxine analogs I, 387
Physcion, isolation of, from *Ditremexa occidentalis*, L., 271
Piperazine derivatives, antiacetylcholine activity of, 279
Piperazines and ethylenediamines. Amine derivatives of cyanuric chloride III, 366
Piperidinecarboxylic acids and a pyridinecarboxylic acid, diquaternarized amino alcohol esters of. An evaluation of certain hypotensive agents I, 595
Piperidines with motor depressor and antiinflammatory properties, 333
β-Piperidinopropiones and related derivatives, antimicrobial properties of a series of, 539
β-Piperidinopropiophenone and related compounds, alkoxy derivatives of, 542
Plasma levels of mephenesin, mephenesin carbamate, guaiacol glyceryl ether, and methocarbamol (AHR-85) after oral and intravenous administration in the dog, 374
Poliomyelitis vaccines, estimation of formaldehyde in, 299
Polyacrylic and styrene polymers. Interaction studies of cationic drugs with anionic polyelectrolytes II, 21
Polyelectrolytes, anionic, interaction studies of cationic drugs with, II. Polyacrylic and styrene polymers, 21
Polyethylene glycol and dimethylurea, study of complex formation by, with some pharmaceuticals, 615
Polyethylene glycols, spermaceti, cetyl alcohol, petrolatum, white wax, and theobroma oil, a dilatometric study of melting behaviors of some fats, waxes, and related substances of pharmaceutical importance, 732
Polymers, polyacrylic and styrene. Interaction studies of cationic drugs with anionic polyelectrolytes II, 21
ultrasonic depolymerization of natural, 617
Polyols and sugars, effect of various, on the stability of vitamin B_{12}, 650
and various sugars, a study of the inhibitory concentrations of, on the growth of microorganisms, 219
Polythionates, externally deposited, the absorption of sulfur compounds from, by the skin of the rat, 263
Polyvinylpyrrolidone-iodine, the chemistry of, 201
Poppy capsules, extraction of morphine from, and its recovery by ion exchange, 193
use of ion exchange in recovery and partial purification of morphine from aqueous extracts of, 247
Potassium and sodium content of rat tissues dry-ashed in Pyrex, erroneous values for, 624
Preservative studies in solutions and products containing nonionic surfactants, II. The preservation of aqueous preparations containing nonionic surfactants, 445
Preservatives and methylcellulose, a study of the interaction between, 211
Procainamide, a kinetic study of the acid-catalyzed hydrolysis of, 28
Procaine and β-diethylaminoethyl cumate, a comparative study of the local anesthetic potencies and toxicities of, 167
hydrochloride, propoxycaine hydrochloride, and tetracaine hydrochloride, the estimation of, spectrophotometric titrations with nitrous acid, I, 724
Propoxycaine hydrochloride, procaine hydrochloride, and tetracaine hydrochloride, the estimation of, spectrophotometric titrations with nitrous acid I, 724
Propylene glycol-sorbitol and glycerin-sorbitol combinations, a study of the inhibitory concentrations of, on the growth of microorganisms, 217
Protective ointments, investigation and development of, I. Development of the method for measuring permeation of mechanical barriers, 694; II. Influence of partition coefficient and thickness, 698
Protoveratrine, determination of, II. Separation of protoveratrines A and B from associated alkaloids, 191
Pseudomonas aeruginosa, amino acid utilization and glutamic acid synthesis by variants of, 307
Pteryxia terebinthina (Hook.) Coult. var. *Terebinthina*, volatile oil from the roots of, 704
Pyridinecarboxylic acid and piperidinecarboxylic acids, diquaternarized amino alcohol esters of. An evaluation of certain hypotensive agents I, 595
Pyrogenic extract, potent, derived from a strain of *Aerobacter aerogenes*, 685

Q

Quaternary ammonium germicides in compressed troches, an investigation of the incompatibilities of, I. Adsorption of cetylpyridinium chloride and benzalkonium chloride by talc and kaolin, 524
salts, a note on paper chromatography of some, 625

R

Radioisotope tracer method, cobalamin assay by the. A collaborative study report of the U. S. P.-N. F. joint panel, 66
Rauwolfia alkaloids, indoles, and related compounds, reaction of, to nitrite, 744
hypotension I. The role of the vagi and carotid afferent nerves, 98; II. Action of alseroxylon alkaloids and epinephrine on the carotid pressoreceptors, 103
species, paper chromatographic evaluation of, 720
Reflectometer, integrating sphere, some applications of, to pharmaceutical problems, 631
Reserpine and meprobamate, the effect of, on gastric acid secretion, 455
a simplified nitrite procedure for the determination of, 601
Resins, ion exchange, the formulation of ointments containing medication adsorbed on, 44
ion exchange, the *in vitro* testing of ointments containing medication adsorbed on, 47
Resorcinol derivatives, preliminary investigation of the fungistatic properties and toxicity of certain, 185
Respiratory vaccine, an enteric-coated oral, a note on the antigenic stability of, 148
Riboflavin: aluminum monostearate suspensions in man, prolonged effects of, 109
Rubber closures for injections, haze formation of, 377
for injections, sorption of water by

II. Effects of vapor pressure, bisulfite, and washing treatments, 350; III. Effect of organic compounds, 355

S

Salicylic acid and benzoic acid mixtures, determination of, by differential nonaqueous titration, 287
Sapogenins, steroidal. XXXIX. Occurrence and isolation of gentrogenin and correllogenin from *Dioscorea spiculiflora*, 155; XL. Simplified procedure for the qualitative detection of cardiac glycosides, 304; XLIII. Survey of plants for steroidal sapogenins and other constituents, 653
Scandol, the nature of, 183
Sex hormones in pharmaceutical preparations, ion exchange separation of phenolic and nonphenolic, 321
Silicone and petrolatum ointment bases, a comparison of *in vivo* and *in vitro* tests for the absorption, penetration, and diffusion of some medicinals from, 705
Sodium and potassium content of rat tissues dry-ashed in Pyrex, erroneous values for, 624
alginate solutions, viscosity changes of, after freezing and thawing, 562
cholate. The influence of bile salts on glycoside biosynthesis in *Digitalis purpurea* I, 228
deoxycholate, dehydrocholate, glycocholate, and taurocholate. The influence of bile salts on glycoside biosynthesis in *Digitalis purpurea* II, 232
metaborate and boric acid, a note on the effect of, on the oxygen uptake of brain tissue, 569
Solanaceae, a survey of selected, for alkaloids, 302
Solanaceous alkaloids, a chromatographic densitometric procedure for the analysis of, 384
Sorbitol solution in pharmaceutical formulations, a note on the use of, 627
solutions, aqueous, the preservation of, 221
Spectrophotometric determination of cycloserine and isoniazid in pharmaceutical preparations, 729
titrations with nitrous acid I. The estimation of procaine hydrochloride, propoxycaine hydrochloride, and tetracaine hydrochloride, 724
Spermaceti, polyethylene glycols, cetyl alcohol, petrolatum, white wax, and theobroma oil, a dilatometric study of melting behaviors of some fats, waxes, and related substances of pharmaceutical importance, 732
Spirohydantoins and derivatives of tetrahydronaphthalene. Anticonvulsants, 118
Stability, prediction of, in pharmaceutical preparations IV. The interdependence of solubility and rate in saturated solutions of acylsalicylates, 584
Stabilization of benzocaine with 1-ethyltheobromine. Inhibition of hydrolysis of esters in solution by formation of complexes IV, 36
Staircase phenomenon, studies to determine the adaptability of the, to the assay of cardiac glycosides, 468
Sterilization, electron, of certain pharmaceutical preparations, 580
of plastic intravenous injection equipment by ethylene oxide vapor, 439
Steroidal sapogenins XXXIX. Occurrence and isolation of gentrogenin and correllogenin from *Dioscorea spiculiflora*, 155; XL. Simplified procedure for the qualitative detection of cardiac glycosides, 304; XLIII. Survey of plants for steroidal sapogenins and other constituents, 653
Strychnos alkaloids, studies on the high voltage electrophoresis of, 476
Styrene and polyacrylic polymers. Interaction studies of cationic drugs with anionic polyelectrolytes II, 21
Sugars and polyols, effect of various, on the stability of vitamin B_{12}, 650
various, and polyols, a study of the inhibitory concentrations of, on the growth of microorganisms, 219
Sulfathiazole renal toxicity, a note on the effect of hyaluronidase on, 206
tablets made at constant pressure, the effect of type and concentration of binders on the hardness and compressibility of, 257
Sulfaethylthiadiazole I. Interpretations of human blood level concentrations following oral doses, 399; II. Distribution and disappearance from the tissues following intravenous injection, 403.
Sulfhydryl content of rat liver, total nonprotein, comparative effects of certain nonnarcotic analgetics on the pain-induced lowering of, 19
Sulfur atoms, the exchange of, between tetrathionate and pentathionate anions, 266
Sulfur compounds, the absorption of, from externally deposited polythionates by the skin of the rat, 263
Surfactants, nonionic, the preservation of aqueous preparations containing. I. Growth of microorganisms in solutions and dispersions of nonionic surfactants, 442. II. Preservative studies in solutions and products containing nonionic surfactants, 445
in tablets to improve disintegration, 520
Suspending agents, a study of the lyophilization of several pharmaceutical gums and, 412
Sustained release products, oral, a note on the mathematics of, 572
Sympathomimetic amines, determination of, by ion exchange, 85

T

Tablet disintegration, factors affecting, 236
Tablets, compressed, studies on, I. Effect on disintegration time of the procedure used in incorporating the disintegrating agent, 131
surfactants in, to improve disintegration, 520
Tartaric acid, some isomers of, a comparative study of the metabolism in the human body of, 575
Taurocholate, sodium deoxycholate, dehydrocholate, and glycocholate. The influence of bile salts on glycoside biosynthesis in *Digitalis purpurea* II, 232
Terpenones, central stimulating properties of some, 77
Tetracaine hydrochloride, procaine hydrochloride, and propoxycaine hydrochloride, the estimation of, spectrophotometric titrations with nitrous acid I, 724
stabilization of with caffeine. Inhibition of hydrolysis of esters in solution by formation of complexes III, 32
Tetracycline and oxytetracycline, the solubility and complexing properties of, I. Interaction in aqueous solution, 458; II. Interactions in nonaqueous solution, 587
Tetraethylenedisulfotetramine, the pharmacology of tetramine, 239
Tetramine (tetraethylenedisulfotetramine), pharmacology of, 239
Tetrathionate and pentathionate anions, the exchange of sulfur atoms between, 266
Theobroma oil, polyethylene glycols, spermaceti, cetyl alcohol, petrolatum, and white wax. A dilatometric study of melting behaviors of some fats, waxes, and related substances of pharmaceutical importance I, 732
Theobromine and theophylline, ethyl, propyl, and butyl derivatives of, interactions between *p*-hydroxybenzoic acid and. Complexes formed in solution by homologs of caffeine, 38
Theophylline, pentobarbital, and papaverine in tablets, determination of, by spectrophotometric analysis, 644
salts, solution rate of, and effects from oral administration, 607
and theobromine, ethyl, propyl, and butyl derivatives of, interactions between *p*-hydroxybenzoic acid and. Complexes formed in solution by homologs of caffeine, 38
Thiol esters and esters of cysteine, 273
Thiophene isomers, a comparison of the physiological activity of, 129
Thiosemicarbazones, cyclization products of. Derivatives of α-amino aldehydes III, 371
***p*-Thymotic acid** and its derivatives, preparation of, 292
Thyroxine analogs, some, I. Substituted β-phenylserines and related substances, 387
Tibione (amithiozone) analogs, 437
Tragacanth, gum, influence of, on the bactericidal activity of preservatives, 144
Tral, a new anticholinergic drug, methods for the determination of, 639
Triazine mercurial diuretics, 689
2-Trichloromethanesulfenyl - 6 - nitrosaccharin and related compounds. A note on fungicides, 207
Troches, an investigation of the incompatibilities of quaternary ammonium germicides in compressed, I. The adsorption of cetylpyridinium chloride and benzalkonium chloride by talc and kaolin, 524
Tumors, the activity of β-diethylaminoethyl diphenylpropylacetate hydrochloride on Ehrlich ascites and other, 648

U

Ultrasonic depolymerization of natural polymers, 617
Ultraviolet absorption, carvone analysis by, 381
irradiation of human fibrinogen for intravenous use, methods for the preparation and, 295
U. S. P.-N. F. joint panel, a collaborative study report by, on cobalamin assay by the radioisotope tracer method, 66

V

Vaccine, enteric-coated oral respiratory, a note on the antigenic stability of an, 148
Vaccines, poliomyelitis, estimation of formaldehyde in, 299
Viscometer for pharmaceutical research, an automatic, 310
Vitamin B_{12}, ascorbic acid, and ferrous gluconate, aqueous preparations containing, 635
effect of various sugars and polyols on the stability of, 650
Vitamins, B-complex and ascorbic acid, a combination in aqueous solutions, 134
Volatile oil from the roots of *Pteryxia terebinthina* (Hook.) Coult **var.** *Terebinthina*, 704

W

Warexin, a study of, a new hypochlorous acid germicide, 124
Waxes, fats, and related substances of pharmaceutical importance, a dilatometric study of melting behaviors of some I. Polyethylene glycols, spermaceti, cetyl alcohol, petrolatum, white wax and theobroma oils, 732
Wy-1263, ganglionic blocking agent. Hypotensive activity and comparative effectiveness on normotensive unanesthetized dogs, 346

Z

Zinc stearate, a note on the assay of, 512
